CLINTON
CHRISTIAN
SCHOOL

Goshen,
Indiana

THE ECHO
1973

We arrived.

New, unused
To be formed and arranged.
We brought our talents together,
And with the merging of the individual,
 student and faculty,
 boy and girl,
 you and I,
Quiet at first,
Increasing with familiarity,
Our sound grew.

Time passed.
Our sound increased in intensity.
Forming respect for the individual
Yet disciplining ourselves to work
Within the student body,
We changed, expanded, and heightened.

The thunder came

Trying to overpower our sound,
The wind blew
Confusing the voice of the sound.
We had

- arguments
- dissention
- misunderstanding

But the quietness returned again.
We were aiming at one purpose
Together.

The sound was calm, flowing, and happy.
A new chord was added.
Thousands of vibrations exploded.
The sound vibrated as one giant
Sound.
Yet in all these vibrations
One may find his own identity.

To our parents:

We wish to express our deep appreciation to you, our parents. The encouragement you gave us when the going got difficult, the confidence you have shown in us, the sacrifices you made so we could come to this school, and the example of love you showed us, have all added to our strength and happiness.

Proud as we may be of our achievements, we also remain proud of you, our parents.

To you we dedicate the 1973 Echo.

Gratefully,
The Class of 1973

Activities

Bible

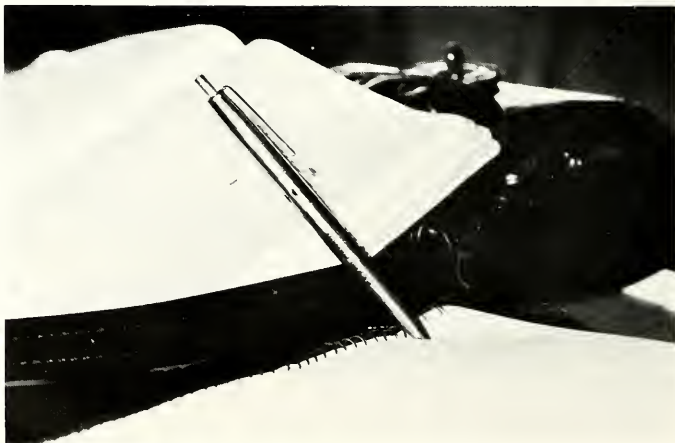

Thought - provoking discussions . . .
memorization . . . themes . . . second
period . . . all these added together
equal Bible class here at CCHS.

Carla Slabaugh

Wilbur Beachy

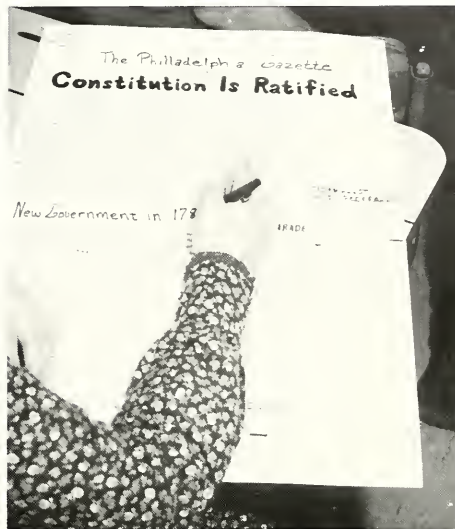

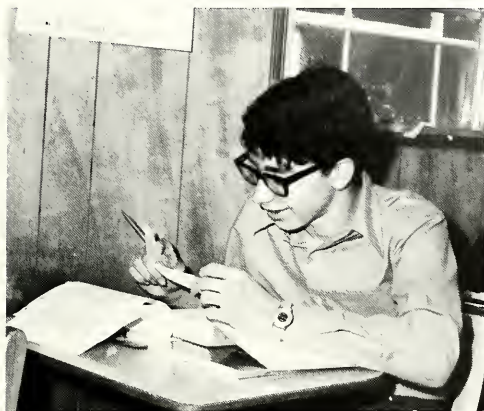

All the sacrifice and hard work in the history of our country kept our U.S. History class interesting.

The many small details involved in governmental procedures learned in government class were better understood after sitting in on a local court trial.

Sociology students' various opinions towards our society showed us that life would be boring should everyone be alike.

Social Studies

Barbara Shetler

Language

Bad grammar is growing scarce at CCH as the teachers all ganged up on us students to stamp out double negatives, incorrect tense of verbs, filler words, "Uh, Uh", then I, then I, and ya' know.

Three week assignments for term papers characterized literature for the Jr. Class. At the end of the day, this class gets our left overs as we attempt to get our minds to match Miss Nisly's lecture on past and present worlds of fantasy.

Stencils, dustmops, dippety-glass, fuel pumps, and our childhood experiences all came into speech class in live appearance. As we leave class each day, we learn to know each other better because we have learned to better communicate with each other.

Treva Miller

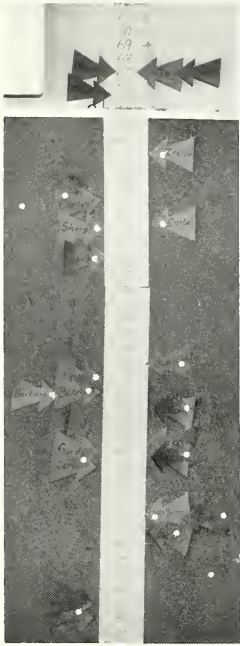

Mr. Yoder

Incomprehensible gibberish has turned into daily communications for us Spanish fans. Any more, we know what Mr. Yoder means when he asks if we're chewing gum—

¿Anita, está mascando goma?

¡Qué comida más sabrosa!

Business

Myron Bontrager, Carolyn Eash,
and Gary Herschberger

Margaret Mast

In our preparation for the business world, clicking keys of typewriters and adding machines constantly hum to our patient teachers.

Sometimes our projects just don't work out; and we'll never reach seventy words a minute, but we come back tomorrow and try again!

Randall Riegsecker

Science

Health

An awareness of the physical reality of ourselves, of animals and plants, comes to us as we biologists peer into the microscope.

Endeavoring to grasp concepts—elements, atoms, reactions ... Boyle's and Charles Law, we as chemists learn the advantages of precise experimentation.

David Raber

Ron Riegsecker

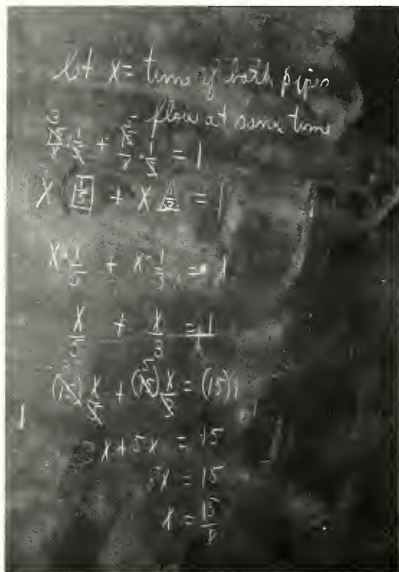

Bandages for the injured, heart disease, femur bones—these were objects of our practical health discussions.

Compliments of Banner Drugs

Math

Baffled expressions are changed into ones of self-satisfaction as understanding of the complex math problems sinks in. Constantly adding new equations and formulas, Mr. Funk keeps us Algebra students hopping. We come to Business Math preparing ourselves for the world of tomorrow.

"Miss Miller, this problem . . ."

Mr. Funk helps Elwood with his business math

$$3x^2 + bx + 2$$

$$26x^2 + z - 6$$

$$20y^2 - 19y + 3$$

Home Economics

Miriam Miller

The aroma of food, the humming of sewing machines, the pounding of hammers, the buzzing of saws—these brought us face to face with the practical arts. After our many failures, we were rewarded with delicious food or smooth, polished woodwork.

Karen Yoder

Eldo Hoover

Industrial

Arts

Music

Snatches of music, followed by "Let's sing it again" come from the music room daily as we develop our talents through practice. Identification of chords and composition of music also enters our busy schedule. After seeing all the work that goes into a music composition, we are quite ready to give our all to singing The Hallelujah Chorus, or Let Him be Crucified.

Compliments of Bickel's Barber Shop

CHAPEL

Advisor. Miss Nisly

John 1:3 says, "All things were made by him; and without him was not anything made that was made." If we realize this we can sense a deep reverence for God. Can you say with me:

There's a new song in my heart
Since the Savior set me free.
There's a new song in my heart
Tis' a heavenly harmony.
All my sins are washed away
In the blood of Calvary.
O what peace and joy
Nothing can destroy
There's a new song in my heart!

-Sheryl Miller

FROM THE PRINCIPAL'S DESK

Traditionally there are times when we observe certain examples.

Walter Funk

... glory to the One who alone should receive our deepest feeling of gratitude.

(Cont. next col.)

"Live each day to the fullest. Get the most from each hour, each day, and each age of your life. Then you can look forward with confidence and back without regrets."

Inner Workings

Duane Blough

Beneath everyday exteriors for five days a week, four weeks a month, and nine months a year, these people faithfully performed their duties to keep us comfortable — with milk, heat, and cleanliness.

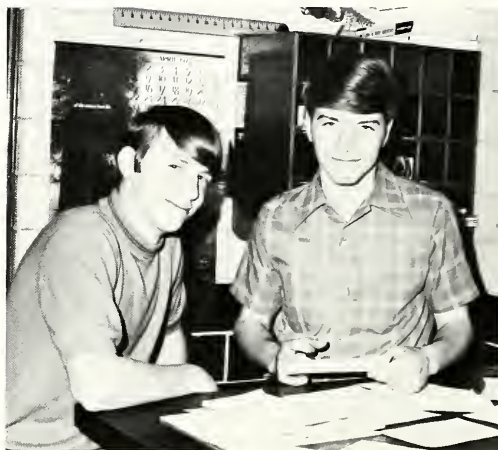

Mervin Miller

- The shepherds
- "Watchman, Tell Us"
- "We Three Kings"
- "Hallelujah Chorus"
- "Voices of Youth"

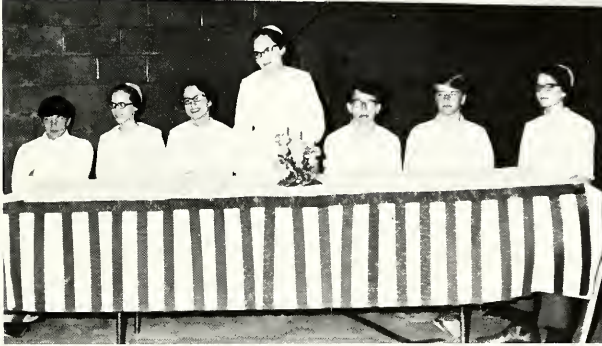

Junior Senior Banquet

April is drawing nearer and there are still a lot of details to work out. "Let's be ourselves and have a banquet that shows what we're really like." Spring is bursting forth bringing blossoms to the creeks, blades of green grass . . . "The World Has Come Alive! How About You?"

Class Night

What we did long ago . . . What
we're going to be doing in the future
. . . Handing down traits we no longer
need . . . And singing . . . All
a part of our Class Night.

Class Motto – The Door of Opportunity Opens to Responsibility

Class Flowers – White Carnation and Red Rose

Class Color – Maroon

1973

Commencement

It seems nothing ever changes

But yet nothing stays the same.

We find ourselves experiencing something new.

We're on our own now - this is when we find
out what we really are.

All of these ceremonies symbolize it.

They mean whatever we want them to now-

But later we will realize.

Why does it always have to be later?

Speaker - Willard Mayer
Plain City, Ohio

Off To Washington D.C.

Pausing with Indiana Senator Vance Hartke

WHO'S WHO

neat Karen & Gary

CLASS of

1973

Because of each other we are more:

Bad days were more frequent for some
of us, but that's growing up.

We felt more deeply the affects of
learning, growing, loving, living.

Lot's of us are really searching, and
sometimes it's painful.

We have learned from each other,
we must make something of
that knowledge.

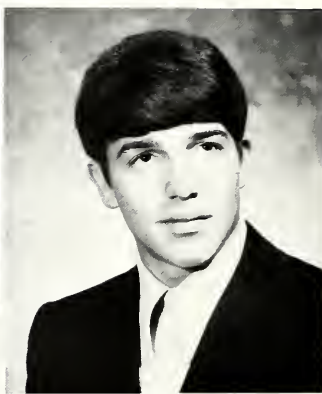

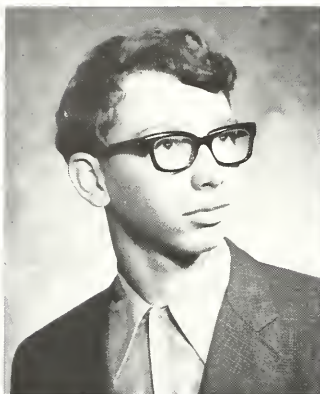

Sometimes we're so much like
brothers and sisters it's sickening.
At other times it's great!

We could flood you with new
words and terms:

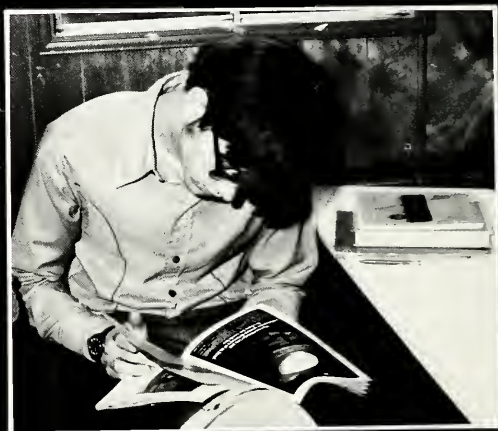

heyday
thwart
perturbation
lassitude
drollery
infestivity

But that wouldn't tell you
anything about the Seniors.

We could tell you about:

term papers
racked brains
class parties
prayer meetings
5 minute chapel speeches
struggles for originality

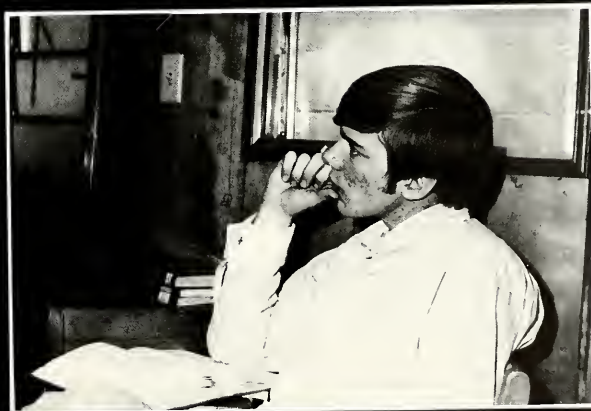

Maybe that would give you some idea.

PLEASE

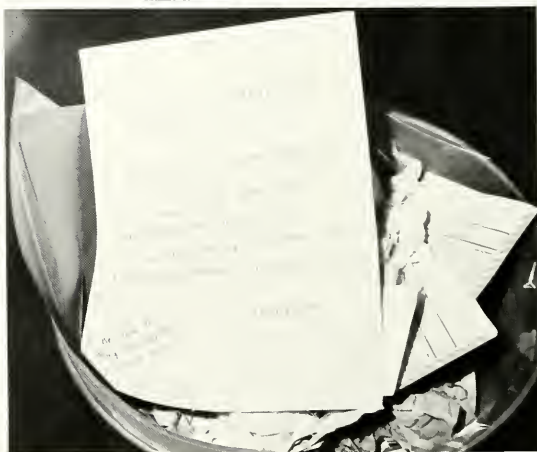

Don't disturb
ME!

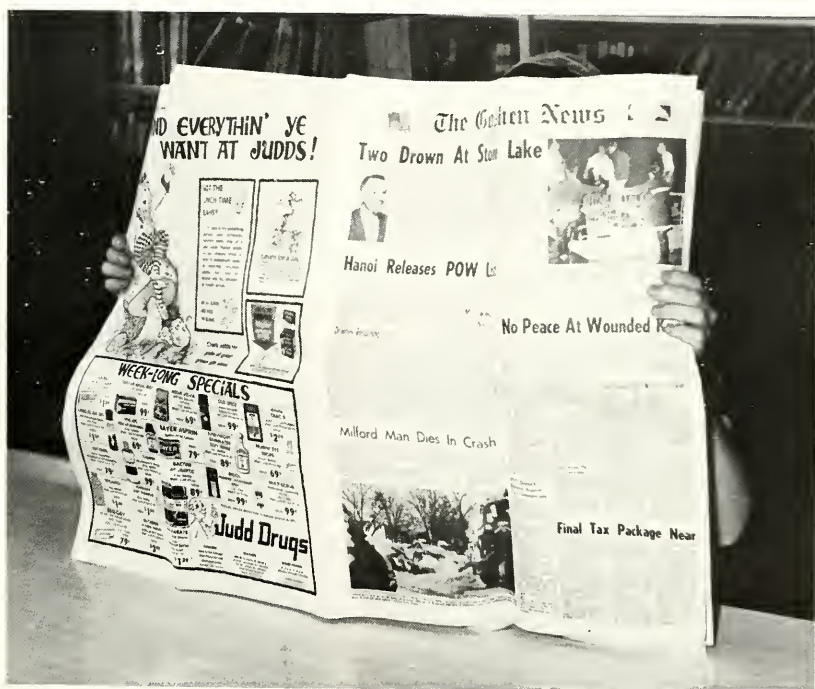

I'm thinking!

One by one

Events occurred to be recalled as memories.
Slowly our sound began.
Slowly our sound diminished,
Until only a faint vibration was heard.
Fragments were left
But echos mingled in the remains.
Life was still there.
Echos remain, from which future
Sounds can be amplified.

AN OPPORTUNITY TO SERVE

An opportunity to serve awaits industrious young men and women at Northern Indiana Public Service Company. As one of the top gas and electric distribution utilities in the United States, NIPSCO is constantly looking for new processes and methods of efficient operation. These include atomic power generation, extra high voltage transmission, underground electric distribution, computerized system planning, underground storage of natural gas, community analyses and electronic data processing.

Ready to grow with a growing company?

IN AN ATMOSPHERE OF GROWTH

NIPSCO is one of the highest-paying utilities in the State of Indiana. Its attractive employee benefit package—tuition refund plan, vacations, holidays, life insurance, comprehensive medical insurance, pensions, etc.—provides an atmosphere for individual growth. Fifteen leading colleges and universities are strategically located throughout its service area with others available in the greater Chicago area. Drop in. We'll be glad to talk jobs with you.

Strength for Today from the Past

Tim Detweiler shares himself and his faith with inner city children from Operation Wichita in an activities program sponsored by the college. Hopefully, persons are more important than programs at Hesston.

Hesston strives to be a Christian place. It is also Mennonite, bringing to bear the traditions and values of both ideas. Hesston College is sixty years old. Yet the structure stands tall and intact as we continue to build on the strongest of foundations.

For "No other foundation can anyone lay than that which is laid, which is Jesus Christ." I Cor. 3:11

CONGRATULATIONS
Class of 173

The world is at your fingertips -

But remember:

"In striving to climb the ladder of success, never do it at the expense of your fellowman. This is much too high a price and not according to the Word of God."

Very best wishes,

V.H. Steury, Pres.
